The width of the strip is 12 mm.

We have a large stock the whole year. Ledverlichting Soest is a leading led company in Europe.

Ledverlichting Soest is a wholesale distribution of led products. We import our products from the best manufacture companies in Azië. We also have a technical alliance with Dutch investment companies who invent special LED products in cooperation with TNO and Dutch universities.

Ledverlichting Soest Nr. 1 in led

Very easy. Everybody can do this. You only have to connect 2 parts. Then put the connector into the power point and ready! With the adhesive tape you can connect (indoor) where you want to. If the strip is too long you can cut it every 10 cm. On the strip you can see where to use the scissors.
